

> MULTIPLE-COLOR SIGNALING WAND WITH LED JB31T

For handling and car traffic – signal & flash light

ELAUL JB31T signaling wand is suitable for police, navy or airport handling use

Rechargeable with the JB28 charger. Only one charger is needed for two wands.

Colors can be changed as often as wanted thanks to the left switch and the torch can be switched on and off thanks to the right one.

Standard colors are red - white - green, but other colors are available on request!!

The signaling wand is perfectly suitable for police controls:

- Red for stop!
- Green for traffic!
- White: the traditional color!

When the torch is on, colors are off.

Ref. 38 201 508

- The signaling wand does exist without torch and in a D-cell version
