

## > MULTIPLE-COLOR SIGNALING WAND WITH LED JF31

For handling and car traffic

ELAUL JF31 signaling wand is suitable for police, navy or airport handling use

Colors can be changed as often as often as wanted thanks to the left switch and the torch can be switched on and off thanks to the right one.

Standard colors are red - white - green, but other colors are available on request!!

The signaling wand is perfectly suitable for police controls:

- Red for stop!
- Green for traffic!
- White: the traditional color!

Ref. 38 201 505

- > Other versions : the signaling wand does exist with torch and in rechargeable version
