

> PORTABLE AIRFIELD LIGHTING SYSTEMS

ELAUL BA139 : suitable for airports and helipads

ELAUL AIRFIELD LIGHTING KITS are versatile, battery-powered runway lighting system specifically designed for airport or helipad use.

BA139 lights are portable and rechargeable and have the following general characteristics:

- Omnidirectional low-intensity off-the-ground beaoning lights for night VFR
- LED lighting device
- 5 versions:
 - => Portable light complying with FAA ref AC n° 150/5345-50B
 - => 25 Cd low-intensity light, ICAO appendix 14 and STAC
 - => 50 Cd low-intensity light, ICAO appendix 14 and STAC
 - => Device gathering all 3 versions above
(selection thanks to a rotary switch (SI) located on the front face)
 - => Device gathering all 3 versions
(selection thanks to a remote-control system)
- Ni-Cd battery: the most strong-built battery - keep load is not necessary
- Rechargeable on mobile devices such as ELAUL transfer trailer
- The remote system, suitable for maxi 4000m runways, will be set on the charging trailer.
- A portable remote system will be provided for a range of only 400m.
- This new beacon is furthermore compatible with all ELAUL charging systems BA137.

TECHNICAL SPECIFICATIONS:

- ▶ Product size: (L) 260 x (Dia.) 165 mm
- ▶ Product weight (with battery): 4 kg
- ▶ LED kit and lens for a right brightness
- ▶ Battery: Ni-cd 13,2V 8Ah
- ▶ Colors: clear, green, red, blue, amber
- ▶ Run time: cf. the board following page
- ▶ Charge time: < 8h
- ▶ Protection: IP657
- ▶ Lens: polycarbonate
- ▶ Body: strong plastic
- ▶ Functioning: -30°C / +45°C
